ABOUT ME

Seasoned Front-end developer with more than **6 years** of commercial experience, focused on building full-featured web applications. Passionate about implementing exceptional user experiences with TypeScript, React, Next.js and TailwindCSS

WORK EXPERIENCE

Front-end Developer | Team Brilliant | Mar 2022 - Jan 2025

- Worked on enhancing and modernizing web resources for Norwex - a global direct sales company
- Implemented modern and scalable solution using TypeScript, React and Next.js to replace a legacy Backbone.js system
- Contributed to migration from microfrontends to monorepo, improving project structure and developer experience
- Developed a cross-platform React Native application for Howl, social commerce platform that connects brands with creators
- Implemented innovative solutions to optimize performance and enhance user engagement
- Collaborated with the business to meet product goals and ensure a seamless user experience

Full-stack Developer | Spinom | Jul 2019 - Feb 2022

- Developed a complex online store for PalitraL, featuring shopping functionality, library and audiobooks online streaming
- Participated in designing and building mobile application with React Native and Expo
- Implemented integrations with a number of banking APIs and delivery services
- Lead development of VIARO, innovative Georgian autoparts marketplace
- Created comprehensive B2B and B2C React Native applications
- Ensured seamless integration with third-party autoparts catalogs, foreign supplier services and numerous banking and delivery solutions
- Reworked React Native application for Ally, Georgian social networking app
- Worked closely with product to design and implement enhanced UI

Full-stack Developer | Lupi AI | Nov 2018 - Jul 2019

- Worked on a comprehensive university management backend system based on TypeScript, React, NestJS and MongoDB
- Contributed to the development of modules responsible for financial management, course management and student/personnel administration
